

Dear Parents,

Occasionally throughout the year, head lice may be discovered among the kids here at church. We wanted you to be aware of the fact that we have recently discovered head lice. We are asking that you would partner with us by checking your child at home before a church event so that we can stop the spread of head lice.

If you are not sure how to check for head lice or how to treat it, go online and search for information. Consider speaking with your child's Dr. if you do not have internet access. We are also happy to help you in this area.

When head lice is discovered at church, we will ask parents to come and get their child/children so as to minimize exposure to others. If we discover that specific children have head lice while at church, we will ask that their parents come get them so as to minimize exposure to others. We do not do this as punishment or to embarrass you and your children. Rather, we want to help everyone get the best possible assistance so that the children may return to church right away. We want you here!

In the case of an outbreak in the kids ministry, we may occasionally check all children in order to stop the spreading of further head lice.

Understandably, this can be a sensitive topic for both parents and children. I assure you we are all in this together. If you have any questions please feel free to contact me directly.

His for Kids,

Pastor Jill Waltz,  
Children's Pastor  
Anderson First Church of the Nazarene
